

A Free event evening of Music & Video Presentation To Benefit the Buffalo Field Campaign

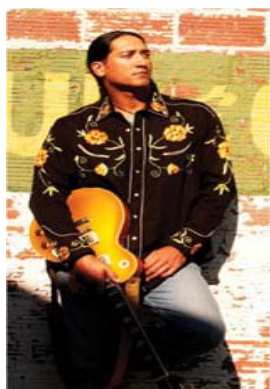

West Yellowstone, Montana Working in the field every day to stop the slaughter of Yellowstone's wild free roaming buffalo
And a Celebration of Leonard Peltier's 64th Birthday with card signing and cake.

A beautiful painting by Leonard will be on display for sale \$2500.00

With 2 great performing artist Good Shield and Phoenix of After Buffalo

Good Shield is the Founder of 7th Generation Rise. Come listen as Good Shield pours his Indigenous Soul into his Music. Good Shield's Song Styles range from Acoustic to Rock to Funk as he weaves through his original music. With 4 CD Recordings to his credit and National Touring Good Shields 7th Generation Rise has become a local favorite here in California. His talent is an inspiration to all, young and old.

"Phoenix spent the waning days of the last millennium with his dog and two horses, making his way from Montana down to the Mexican border where he swapped his horses for a jeep and continued south. This journey was a meditation, an opportunity to try and make sense of this crazy world, especially its hateful, selfish inhabitants who seem bent on treating the world- and each other- like a baby treats a diaper..."

Phoenix's songs rise from the ashes of his journey south. They explore the forces that are threatening to unwind the fabric of the world, as well as those forces that still manage to bind it all together...

Phoenix is a native voice singing in a medium that is very much post-colonial American, from folk to rock to whatnot. But before anyone gets a hair to pigeonhole anybody, Phoenix's sound is very much his own thing....The music is crisp. The lyrics are deep and substantial. The overall sound is unified and beautiful."

-Ari LeVaux **THE INDEPENDENT**
